

Dry Cow Management

We "concentrate" us

In general, our dry minerals are among the most concentrated on the market.

In most of our blends a very high content of vitamin E in natural form is added.
The only exception are minerals for organic herds.

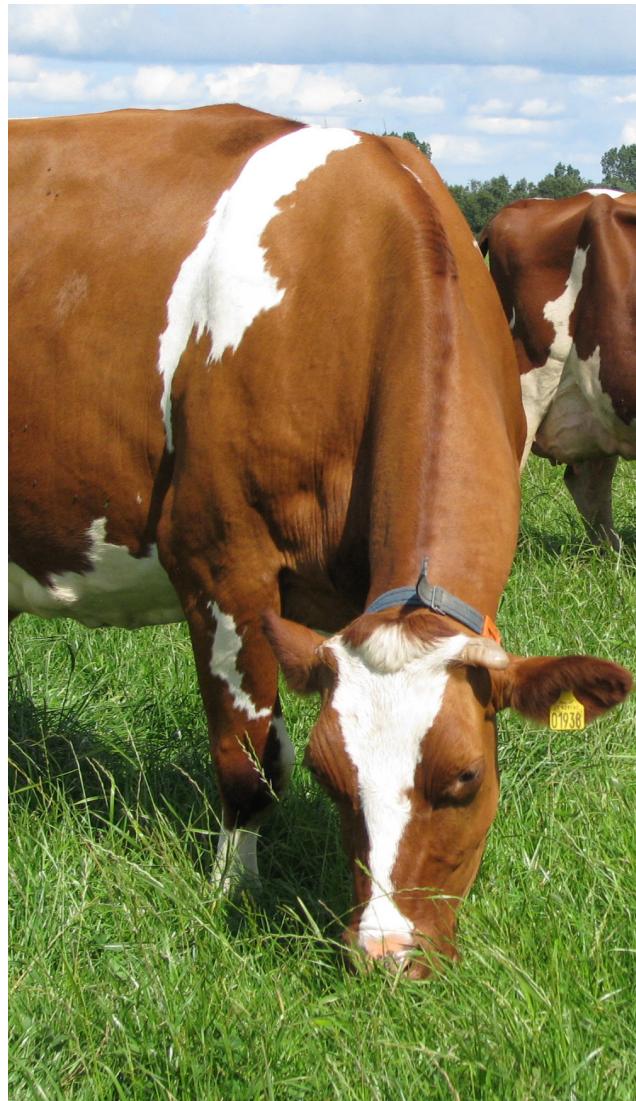

Focus on dry cow management

With the increasing milk producing capacity, dry cow management is one of the major challenges in modern dairy farms. Fortunately, it is also easier to practice good management in the still growing herds.

The occurrence of ketosis, digestive disorders, mastitis and laminitis are much higher during the first 100 days after calving. *Source: Danish Handbook of Livestock from 2015.*

Therefore, a good dry cow management is very important.

An optimal mineral supply is also part of a good dry cow management. A restrictive dry cow feeding results in a lower disease frequency among newly calved cows, however, feed changes and relocations of cows during their dry period also stress the cows - and the need for antioxidants like vitamin E, AO-mix and selenium is increased.

BoviFlex® Dry minerals with organic selenium

For the stressed cow and the unborn calf, it is especially important that the supply of selenium, vitamin E and AO-mix are sufficient around calving.

The use of **BoviFlex® dry minerals** with organic selenium increase the level of selenium in the colostrum, which directly can be "read" by the higher blood values of the newborn calf shortly after birth.

By increasing the allocation of natural vitamin E and organic selenium, measurements of colostrum show that the cow provides the newborn calf with more vitamin E and selenium.

AO-mix is antioxidants which help to boost the immune system with vitamin E and organic selenium.

We have a dry cow solution for every situation

**BoviFlex®
24600 Gold AO-Natur**
14.000 ie natural
Vitamin E/kg
6.000 ie AO-mix/kg
In total 20.000 ie natural
Vitamin E and AO-mix/kg
with organic selenium.

**BoviFlex®
22900 Gold BioNatur**
20.000 ie natural
Vitamin E/kg
with Biotin and organic
selenium.

**BoviFlex®
24965 Gold Green**
8.000 ie natural
Vitamin E/kg
3.000 ie AO-mix/kg
In total 11.000 ie natural
Vitamin E and AO-mix/kg
with organic selenium

**BoviFlex®
21800 Gold AO Green**
Can be used by
organic farmers.
14.000 ie Vitamin E, SD
quality/kg
6.000 ie AO-mix/kg
In total 20.000 ie Vitamin E,
SD quality and AO-mix/kg
with organic selenium.

BoviFlex® - more than just minerals

At Mosegården we assist our clients in finding practical solutions to achieve the best management based on given circumstances of the herd.

Based on the conditions, wishes and needs of our customers, we recommend the optimum mineral solution which from our point of view best meets the needs of the herd.

BoviFlex® Dry minerals organic

BoviFlex 21800 Gold AO Green with org. Selenium

Guarantee of content:

Calcium	0,8 %
Phosphorus	4,0 %
Magnesium	17,0 %
Sodium	8,1 %
Chloride	12,3 %
Sulphur	10,0 %

Additives per kg:

Iron	3.000 mg
Manganese	8.000 mg
Zinc (From IntelliBond*)	6.000 mg
Copper (From IntelliBond*)	1.300 mg
Cobalt	50 mg
Iodine	250 mg
Selenium	30 mg
Organic Selenium	20 mg
Vitamin A	900.000 ie
Vitamin D	200.000 ie
Vitamin E	14.000 ie
Alpha-tocopherol	12.727 mg
AO-mix	6.000 ie
Vitamin E + AO-mix	20.000 ie

Notice:

Allocate 80 - 125 grams/cow/day. With organic selenium. With double amount of Vitamin E/AO-mix. AO-mix boosts the immune system. *) Protected micro minerals

BoviFlex 24965 Gold AO-Natur CAB

Guarantee of content:

Calcium	0,6 %
Phosphorus	2,8 %
Magnesium	18,4 %
Sodium	4,0 %
Chloride	6,3 %
Sulphur	16,4 %

Additives per kg:

Manganese	3.000 mg
Zinc (From IntelliBond*)	3.000 mg
Copper (From IntelliBond*)	640 mg
Cobalt	25 mg
Iodine	124 mg
Selenium	20 mg
Organic Selenium	10 mg
Vitamin A	480.000 ie
Vitamin D	100.000 ie
Vitamin E	8.000 ie
Alpha-tocopherol	5.369 mg
AO-mix	3.000 ie
Vitamin E + AO-mix	11.000 ie

Notice:

Allocate 180 - 250 grams/cow/day. With organic selenium. High content of Vitamin E/AO-mix. AO-mix boosts the immune system. *) Protected micro minerals

BoviFlex® Dry minerals conventional

BoviFlex 24600 Gold AO-Natur with org. Selenium

Guarantee of content:

Calcium	0,8 %
Phosphorus	4,0 %
Magnesium	17,0 %
Sodium	7,3 %
Chloride	11,2 %
Sulphur	10,0 %

Additives per kg:

Iron	3.000 mg
Manganese	6.000 mg
Zinc (From IntelliBond*)	6.000 mg
Copper (From IntelliBond*)	1.300 mg
Cobalt	50 mg
Lodine	250 mg
Selenium	30 mg
Organic Selenium	20 mg
 Vitamin A	 900.000 ie
Vitamin D	200.000 ie
Vitamin E natural *)	14.000 ie
*) d-Alpha-tocopherol	9.396 mg
AO-mix	6.000 ie
Vitamin E + AO-mix	20.000 ie

Notice:

Allocate 80-125 grams/cow/day. High content of natural Vitamin E. Danish studies show a greater uptake of natural Vitamin E and organic Selenium. AO-mix boosts the immune system. *) Protected micro minerals

BoviFlex 22900 Gold BioNatur with org. Selenium

Guarantee of content:

Calcium	0,7 %
Phosphorus	4,0 %
Magnesium	15,5 %
Sodium	7,9 %
Chloride	12,1 %
Sulphur	10,0 %

Additives per kg:

Iron	3.000 mg
Manganese	6.000 mg
Zinc (From IntelliBond*)	6.000 mg
Copper (From IntelliBond*)	1.300 mg
Cobalt	50 mg
Lodine	250 mg
Selenium	30 mg
Organic Selenium	20 mg
 Vitamin A	 900.000 ie
Vitamin D	200.000 ie
Vitamin E natural *)	20.000 ie
*) d-Alpha-tocopherol	13.423 mg
Biotin	200 mg

Notice:

Allocate 80-125 grams/cow/day. High content of natural Vitamin E + Biotin + Organic Selenium to get viable calves and an improved selenium status. Biotin is added to improve the strength of the hoof. *) Protected micro minerals
