

## MasterMix® Minerals for pigs

### Home mixed feed

Herd of pigs are increasingly fed with home-mixed feed. The operational success and thus an optimum financial result depends a lot on the quality of the raw materials available on the individual farm and the right mix of vitamins and minerals.

We offer customised vitamin- and mineral solutions in the form of **MasterMix®**

#### Benefits by using MasterMix®:

- Only high quality raw materials are used
- A fine particle size ensures a high uptake
- Uniform particle sizes prevent de-mixing
- Low water content - less aggressiveness to vitamins
- Excellent dust-laying
- The fine particle size provides a good mixture in fine ground corn
- Direct delivery ensures always new and fresh blends
- We only sell individually customised **MasterMix®**

### Feed optimization - consultancy:

When buying **MasterMix®**, optimisation is part of our service

Optimisation and consultancy can also be offered on a salary basis

## Production:

MasterMix® is only produced by recognized suppliers in the EU.

Today MasterMix® is produced by Trouw Nutrition in the Netherlands, which is one of the leading manufacturers of vitamin- and mineral blends for pigs in Europe.

MasterMix® can be delivered with all approved additives on the market:

- Inorganic minerals such as selenium, zinc, copper, etc.
- Enzymes
- Yeast
- Acids and acid salts

MasterMix® can be delivered:

In customized bags adjusted to the size of the admixture percentage

In 500 or 1.000 kg big-bags
